Observations.—The reduced amount of workers' earnings in 1851, as compared with that of either the previous or succeeding year, is accounted for by a partial suspension of operations on Mr. Kennedy's retiring from the district, and from the direct management of the schools, in January 1851.

I certify that the above Return is correct, and that the industrial department of the above schools has been conducted in conformity with the ordinary principles and operations of the trade.
